Mobile data and data  
failover services

# T-Mobile Services

## Overview

Ensure your customers are always online no matter what. Offer your customers internet data backup/failover to make their business internet bulletproof and provide mobility across the nation. Your customers won't have to worry about downtime with this mobile data service, powered by our nationwide 4G LTE network.

Activating SIM cards and adding data to a Smartphone or data-only device can be done in seconds and will set your customers up for success no matter what happens, wherever they are.

With the T-Mobile Services app, you can:

- Start offering customers mobile data and data failover capabilities
- Select plans for new SIM cards and mobile devices
- Activate mobile devices such as smartphones
- Activate data-only devices such as a MiFi device or internet failover device
- View all activated mobile devices and data only devices, their status, plan and SIM ID

The screenshot displays the KAZOO T-Mobile Services dashboard. At the top, there's a navigation bar with the KAZOO logo, 'T-Mobile Services' title, and user information 'Alisa Bartash'. A search bar is located on the right. Below the navigation bar, there's a section for 'Mobile Devices' and 'Data-Only Devices'. Each section contains a table with columns for 'DEVICE NAME + ASSIGNED NUMBER', 'PLAN + SIM ID', 'STATUS', and 'ACTIONS'.

**Mobile Devices**

DEVICE NAME + ASSIGNED NUMBER	PLAN + SIM ID	STATUS	ACTIONS
Jamesiphone	Basic Voice SIM ID: [redacted]	Active	[info icon] [refresh icon]

**Data-Only Devices**

DEVICE NAME + ASSIGNED NUMBER	PLAN + SIM ID	STATUS	ACTIONS
IPad Pro	Pro Data SIM ID: [redacted]	Active	[info icon] [refresh icon]

## Highlights

# T-Mobile Data Services

Activate SIM

## Device Overview

Quickly activate SIMs and view existing mobile and data-only devices associated with your account. The device overview shows the device name and assigned number(s), the plan and SIM ID, and the current status. You can also take actions such as suspending or replacing each device.

### Are you activating a mobile device or a data-only device?

Please designate which type of device you wish to activate. Your selection in this step will determine what remaining info is required to activate your new device.

 <b>Mobile Device</b> Activate a Smartphone, such as an iPhone or an Android device.	 <b>Data-Only Device</b> Activate a data-only device, such as a MiFi device or Internet failover device.
---	---

## Device Activation

Easily add mobile devices and data-only devices to your account. Activate a Smartphone such as an iPhone or Android device, or a data-only device such as a MiFi device or internet failover device.

### Select a plan for your new Data-only SIM card.

A data SIM card may be used in MiFi and Internet access devices. These SIM cards have voice and text disabled and are only for data. Tethering may also be utilized on devices which allow tethering.

<b>Basic Data</b> <b>\$20</b> /month For users on a budget with basic data needs. Includes 2GB High-speed data. <b>Included:</b> <ul style="list-style-type: none"><li>Up to 2GB of high speed data per month</li><li>Unlimited throttled data</li><li>Works on MiFi and Internet-only devices</li><li>No voice or text services</li></ul>	<b>Standard Data</b> <b>\$35</b> /month For savvy users on a budget. Includes 6GB LTE High-speed data. <b>Included:</b> <ul style="list-style-type: none"><li>Up to 6GB of high speed data per month</li><li>Unlimited throttled data</li><li>Works on MiFi and Internet-only devices</li><li>No voice or text services</li></ul>	<b>Pro Data</b> <b>\$50</b> /month For the most demanding power users. Includes 10GB LTE High-speed data. <b>Included:</b> <ul style="list-style-type: none"><li>Up to 10GB of high speed data per month</li><li>Unlimited throttled data</li><li>Works on MiFi and Internet-only devices</li><li>No voice or text services</li></ul>
